Everything you need to know about us

JOL Electrical Services LLC has been established and managed by Johny Joshy, who has more than 15 years of experience in the MEP Industry. The company focuses mainly on MEP work on different types of buildings like offices, hotels, factories, warehouses, schools, STP plants, Solar Projects, car parking buildings, etc. The company's main activities are not only limited to installation but are also heavily engaged in additional loads, fit-outs, DEWA follow-up for L.V. and H.V., etc. Our deep technical knowledge and deep knowledge of the department's rules and regulations make us confident in undertaking complex jobs and completing them on time.

Company Over View:

We accord the utmost importance to quality, and we take pride in our services. We maintain a rigorous quality control program that includes continuous communication, education, and training. Our quality review process begins at the initial stage and continues until the work is completed. We follow the Quality Assurance Program by systematically listening to our client's concerns, analyzing problems, identifying causes, and effectively developing responses.

SAFETY

QUALITY

TRAINING

PRODUCTIVITY

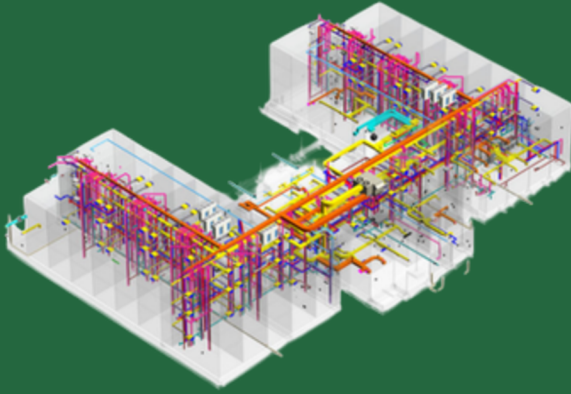

We believe that safety, quality, training, and productivity need to be integrated in order, as training increases productivity, which in turn produces a proportional decrease in risk and an increase in Quality. Reduced risk helps to reduce hazards, and accident-free projects will be more productive. Our people are our greatest assets. We provide them with a safe work environment, treat them respectfully, value the contribution of every member of our team, and seek to further develop them by imparting a continuous, comprehensive training program on technology updates and skills to achieve their optimum potential.

Some of our valuable Customers.

Our Services.

01

MEP Installations.

MEP (Mechanical, Electrical, and Plumbing) Installation Services refers to the comprehensive range of services that involve the installation, maintenance, and management of mechanical, electrical, and plumbing systems in buildings and infrastructure projects. We provide quality service at an affordable price, as well as personalized and inventive service to meet our clients' individual needs at all times.

02

DEWA Coordination

DEWA is responsible for the generation, transmission, and distribution of electricity and water in the Emirate of Dubai. Effective coordination with DEWA is crucial for various construction and infrastructure projects to ensure compliance, obtain necessary approvals, and facilitate the provision of utility services. We ensure compliance with DEWA's regulations, facilitate the smooth provision of utility services, and promote the efficient and sustainable use of electricity and water resources in Dubai.

Some of our Project.

Doha Quarry LLC-(Enerwhwere)

Installation of 4 Mega Watt Hybrid power supply (6 Nos. of transformer installation , HV cable laying and termination, 2 Megawatt Solar system installation

Uniforce-(DIB)

Consultancy for LV design, DEWA follow up from NOC to power release

MBR Solar Park (ESEME)

44 Nos. of TESLA power pack and inverter installation, LV cable laying and energizing.

Uniforce-(DIB)

Temporary power supply with Hybrid system, HV cable laying and termination, 4 Nos of transformers installation, LV cable laying , termination and LV panel installations.

Amer Centre Business Bay.-

MEP with DEWA follow up.

Enhance UAE-

19 Nos. of solar inverter installation LV cable laying termination and LV panel installation.

Arada (Enerwhere)-

Temporary power supply, HV cable laying and termination, 3 Nos. of transformer installation.

Khansaheb (UOB)-

Temporary power supply, HV cable laying and termination, 2 Nos, of transformer installation

SOEX(HFZ)-

Hybrid system,2 nos. of TESLA power pack and 1 inverter Installation, LV cable laying and termination ,LV panel installation.

Jalila Culture Centre, Jumeirah-

Solar On grid system-7 nos. of solar inverter Installations, LV cable laying and termination and LV panel installation.

RGSG School sports city (ENER WHERE)

1000 kw solar On grid system (car parking)

OCEAN FAIR INTERNATIONAL (ENER WHERE)

2200 KW On grid system (Roof top)

SMART AUTOMATION ENERGY LLC

400 kw Solar ongrid installation
DIFC GD O5

RENTAL SOLUTIONS & SERVICES

1.2 MV Solar hybrid system
installation UG camp abudhabi

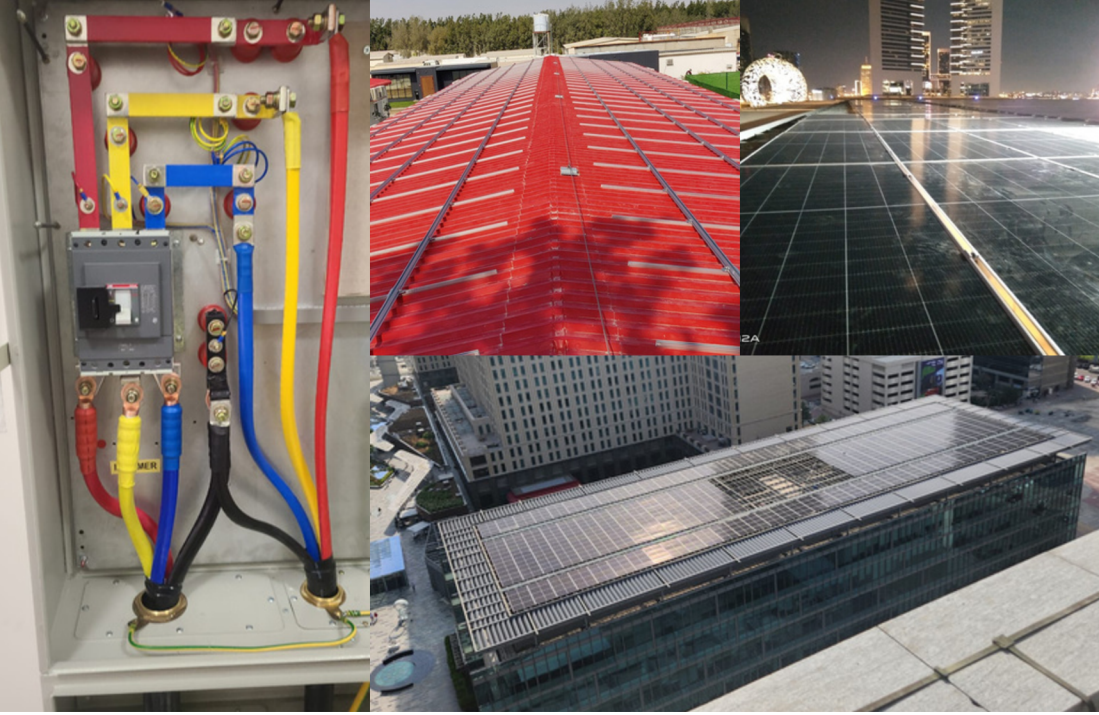

ZAISH ENERGY-SOLAR EPC CONTRACTOR COMPANY IN UAE

625 kw on grid installation UPDOWN SCHOOL
